

Vending Machines & Technology

Cold Drink Machines - We offer a variety of drink machines that deliver your soda juice, water, sports drink, or dairy drink cold and fresh.

Payment Technology - Don't have change or small bills? Dual State Vending has the capability to equip machines with cashless adapters. Simply swipe your credit or debit card and get your item instantly and securely. Also, most bill validators are capable of taking \$1, \$5, \$10, and even \$20 bills.

Snack Machines - Our snack machines are very reliable and can hold upwards of 40 different selections. These machines can stock your favorite chips, candy, crackers, cookies, cakes, gum, and mints as well as other selections.

Combination Machine - Save space with one machine that stocks multiple selection categories like snack/food or snack/cold drink.

Fresh Food Machines - Need something more than just a snack? Our fresh food machines carry fresh subs and sandwiches as well as soups, salads, breakfast sandwiches, and muffins.

Change Machines - We can equip your location with a mounted change machine that accepts \$1, \$5, bills and dispenses quarters.

Today's technology allows the vending machine to know when the product has dropped into the delivery bin to guarantee delivery to the customer, do not be without it.
